Bag Toss (A.K.A. Bean Bag Game or Cornhole) is a great American past time that has been around for centuries. Object of the game is to toss the bags so they land on the board or in the hole.

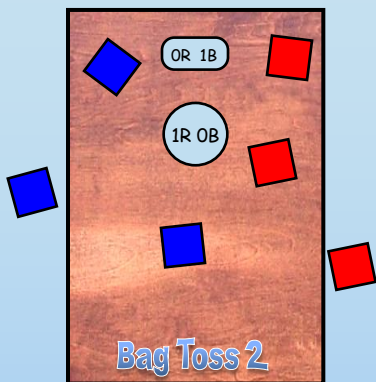

Bag Toss 2 is an exciting variation of this old tradition. The slot is the only difference and it is worth more points.

- ◆ The game can be played with singles or doubles. When playing singles, each player tosses at the same board. These two opposing players battle by throwing four bags alternating after every bag to complete a round. After each round, the players go to the other side and throw. When playing doubles, each player's partner is directly across from them competing against the other team's partner.
  - ◆ Earning Points - To earn points, you must outscore your opponent for the round. The difference in score is your earned points. Points are scored by throwing the bag:
    - On the board - 1pt
    - In the hole - 3pt
    - In the slot - 5pt
- 1-3-5
- ◆ The player/team that earns points in one round goes first for the next round.
  - ◆ The player/team to earn at least 21pts by the end of a round wins the game. If there is a tie, another round is played until the tie is broken.
  - ◆ Dead Bags - Bags can not touch the ground. If a bag hits the ground and then rolls onto the board, that bag is dead and may be removed.
  - ◆ Skunk - If a player/team is winning at least 13pts to 0pts by the end of the round then that team wins the game.
  - ◆ Set and Match- A set is the best of three games. A match is the best of any number of sets (generally 3, 5 or 7).

## Scoring Examples

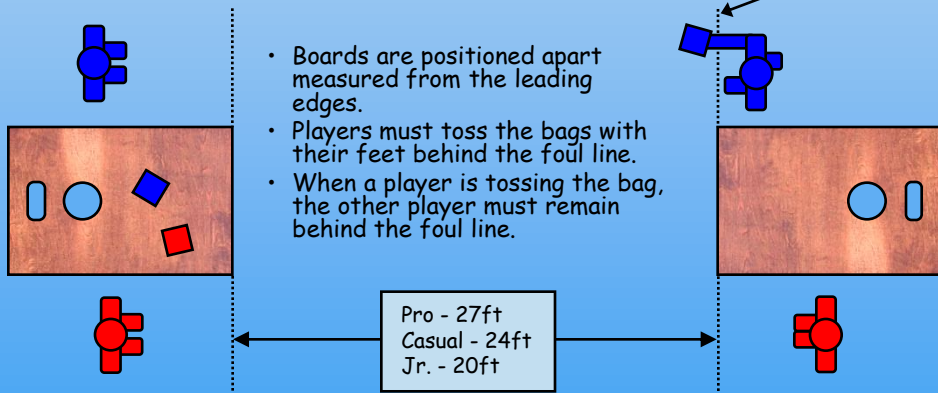

Red has one bag in the hole and two on the board for 5pts. Blue has two on the board and one in the slot for 7pts.  
Blue team earns = 7pts - 5pts = 2pts

Red has one bag on the board and one in the hole for 4pts. Blue has one on the board and two in the hole for 7pts.  
Blue team earns = 7pts - 4pts = 3pts

## The Playing Field

**Pro Tips:** If your bags are sliding off the board, add more arc to your toss. Toss the bag with a smooth swing of the arm. As you toss, your feet start off together, then as you begin your swing, step with your opposite foot towards the foul line. Throw the bags close to the foul line without stepping over the foul line. For more tips visit [www.BagToss.com/tips.htm](http://www.BagToss.com/tips.htm).

**Playing Surface:** Our boards work best on soft surfaces like grass and sand.

**Care Tips:** It's best to keep the boards and bags dry and to minimize exposure to UV.

**Safety:** Children should not play on or around the playing field without close supervision of a responsible parent. Do not stand or play on the boards. Do not eat the filler in the bags, it is plastic. Please drink alcohol responsibly.

**Disclaimer:** Vorticy Sports, Inc. is not responsible, nor liable for damage, including, but not limited to property damage, personal injury or death as a result of storing, transporting or playing our game. Therefore, By purchasing our products, you agree to these terms as indicated herein.
